Market Street - Footway Maintenance

On the 14th July 2025 Norfolk County Council and its contractors will begin essential footway maintenance works on Market Street, Tunstead. The works are currently planned to last 6 weeks. They will take place on the section of Market Street between its junction with Coltishall Lane and its junction with Market Close.

For the works to be carried out safely and efficiently, this section of Market Street will be closed to through traffic, and parking will be suspended for the duration of the works. However, access to properties will be maintained throughout.

To aide businesses, we will erect "business open as usual" signage as part of the diversion route. I have attached the diversion route plan to this letter for your convenience.

The County Council thanks people for their patience while this footway maintenance work is carried out.

The work will be carried out by Norfolk County Council's Infrastructure Department and their contractors.
